finally a crossword dictionary with all the words solvers need and none of the ones they don't. When it comes to puzzle dictionaries it's the quality of what's inside that counts. Who needs a plethora of synonyms that never appear in an actual crossword? So authors Kevin McCann and Mark Diehl analyzed thousands of crosswords to amass an up-to-date list of words that regularly turn up in today's top puzzles to make the dictionary even easier to use. The most popular answers stand out in easy-to-see red, while charts highlight frequently sought-after information such as Oscar winners and popes' names. Crossword fans will keep this right next to their favorite puzzles.

Anyone who regularly tackles challenging crossword puzzles will be familiar with the frustration of unanswered clues blocking the road to completion. Together in one bumper volume, *Crossword Lists and Crossword Solver* provides the ultimate aid for tracking down those final solutions. The Lists section contains more than 100,000 words and phrases listed both alphabetically and by number of letters under category headings such as volcanoes, fungi, Gilbert Sullivan, clouds, cheeses, mottos, and archbishops of Canterbury. As intersecting solutions provide letters of the unanswered clue, locating the correct word or phrase becomes quick and easy. The lists are backed up with a comprehensive index which also guides the puzzler to associated tables. E.g., when looking for film stars, try stage and screen personalities. The Solver section contains more than 100,000 potential solutions including plurals, comparative and superlative adjectives, and inflections of verbs. The list extends to first names, place names, technical terms, compound expressions, abbreviations, and euphemisms, grouped according to number of letters up to fifteen. This section is easy to use and suitable for all levels of crossword puzzle. At the end, a further 3,000 words are listed by category along with an index of unusual words.
